

## WS-1

The 7x7 forward-facing 6-pack must provide a pole and necessary power components to accommodate power and low-voltage from the 12' ceiling. The 6-pack must include:

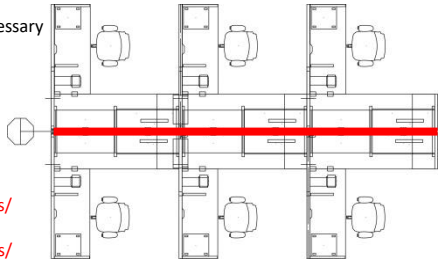

- (12) 42" w x 42" h non powered panels
- (6) 42" w x 16" h clear glass stacking panels
- (6) 42" w x 64" h powered panels (3 base raceway duplex receptacles per workstation)
- (6) 24"x84" HPL worksurfaces with cord drop or 2 grommets/Notched openings
- (6) 24"x60" HPL worksurfaces with cord drop or 2 grommets/Notched openings

- (6) 24" d metal worksurface end support panels
- Include additional worksurface support as needed
- (6) 42" w metal locking flipper door overheads with tasklight
- (6) 42" w metal shelf
- (6) 24" d locking metal fixed file/files
- (6) 18" d metal locking mobile box/file with cushion top and pencil trays
- (6) 42" w tackboards
- (6) 42" w slat rail tiles

- (6) pencil cups; plastic or metal
- (6) diagonal sorting trays; plastic or metal
- (12) paper trays; plastic or metal

Note: Task chair shown for reference only

Note: refer to RFP Section A.3.c for panel height and width variance

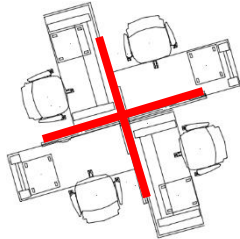

## WS-5

The pinwheel must provide a pole and necessary power components to accommodate power and low-voltage from the **12'** ceiling. The assembly must include:

- (4) 42" w x 42" h powered panels (1 base raceway duplex receptacle per panel/station)
  - (4) 42" w x 16" h clear glass stacking panels
  - (2) 24"x60" **HPL** worksurfaces with **cord drop or 1 grommet/Notched opening**
  - (2) Metal **Open, O-leg, or** H-leg supports
- Include additional worksurface support as needed
- (2) 24"x60" electric height adjustable tables with 1 center grommet and 1 clamp-mount plug-in power/data modules with 3 receptacles and 1 data blank
  - (4) 18" d metal locking mobile box/files with cushion top and pencil tray

Note: Task chairs shown for reference only

**Note: refer to RFP Section A.3.c for panel height and width variance**

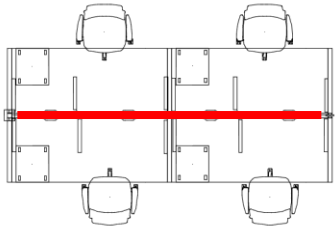

## WS-10

The hoteling style 4-pack must provide a pole and necessary power components to accommodate power and low-voltage from the 12' ceiling. The assembly must include:

- (6) 42" w x 42" h non powered panels
- (2) 42" w x 42" h powered panels (1 base raceway duplex receptacle per workstation)
- (2) 30" w x 42" h powered panels (1 base raceway duplex receptacle per workstation)
- (8) 42" w x 16" h clear glass stacking panels
- (2) 30" w x 16" h clear glass stacking panels
- (4) 30" d x 72" w HPL worksurfaces with cord drop or 2 grommets/Notched openings  
2 grommets;  
fully supported by cantilevers
- (4) 18" d metal locking mobile box/file with cushion top and pencil tray

Note: Task chairs shown for reference only

Note: refer to RFP Section A.3.c for panel height and width variance

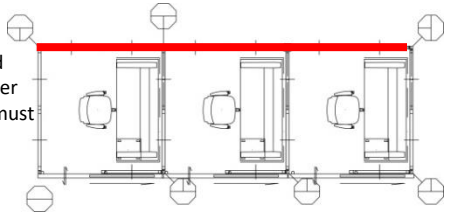

## GC-1

The 7x7 glass cubicle 3-pack must provide a pole and necessary power components to accommodate power and low-voltage from the **12'** ceiling. The assembly must include:

- (6) 42" w x 64" h powered panels (1 base raceway duplex receptacle per workstation)
- (8) 42" w x 64" h non powered panels
- (3) 42" w x 80" w locking sliding clear glass door
- (3) 42" w x 80" h clear glass panel
- (14) 42" w x 16" h clear glass stacking panels
- (3) 30" d x 72" w electric height adjustable **HPL** tables with **cord drop or** 1 center grommet/**notched opening** and 1 clamp-mount plug-in power/data modules with 3 receptacles and 1 data blank
- (3) 18" d metal locking mobile box/file with cushion top and pencil tray

Note: Task chairs shown for reference only

**Note: refer to RFP Section A.3.c for panel height and width variance**

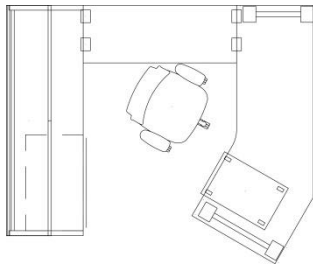

# OF-1

The private office assembly must include:

- (1) 30"d x 72"w key/wedge or jetty HPL worksurface supported by metal Open, O-leg, or H-legs
- (1) 18"d x 48"w bridge HPL worksurface
- (1) 24"d x 72"w HPL worksurface with cord drop or 2 grommets/Notched openings supported by full metal or laminate end support panels
- (1) 72"w metal locking flipper door overhead with tasklight
- (1) 24"d metal mobile box/file with cushion top; locking; pencil tray
- (1) 18"d x 30"w metal locking fixed file/file
- (1) 36"w tackboard
- (1) 36"w slat rail tile
- (1) plug-in clamp mount power/data centers with 3 receptacles and 1 data blank each
- (1) pencil cup; plastic or metal
- (1) diagonal sorting tray; plastic or metal
- (2) paper trays; plastic or metal

Note: Task chairs shown for reference only

Note: Side chair shown for reference only

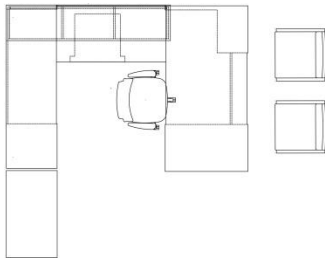

## OF-3

The **wood veneer** executive office assembly must include:

- (1) 36"d x 72"w wood breakfront desk with full modesty panel and locking box/box/file pedestal; **1 grommet**
- (1) 24"d x 48"w wood bridge with full modesty and center drawer; **1 grommet**
- (1) 24"d x 72"w wood credenza with full modesty panel and locking file/file pedestal; **1 grommet**
- (1) 24"d x 36"w wood **veneer** locking 2-drawer lateral file
- (1) 72"w wood **veneer** locking set-on highback organizer with glass-insert doors, 72"w tackboard, and tasklight
- (2) 4-leg open arm wood frame upholstered seat/back executive side chairs

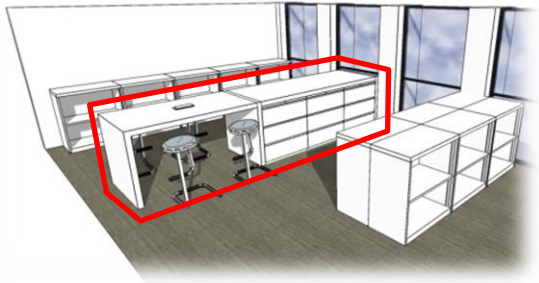

Note: Task chairs shown for reference only

## CA-4

The collaborative storage assembly must include:

- (6) 18"d x 36"w metal locking 3-drawer lateral files with laminate common top
- (1) 36"d x 72"w HPL laminate top with HPL laminate full end panels; no power/data accommodations needed
- (4) bar-height polypropylene seat/back armless stools with 4-leg or sled base frame

## EN-1

(1) 30"d x 60"w HPL laminate table top with metal T-leg supports

(4) CH-2 Side chairs with fixed loop arm, upholstered seat and back, and a 4-leg frame with casters

## EN-2

(4) Lounge chairs with fully upholstered arms, seat, and back.  
Mobile chair on casters with pull bar is ideal.

(1) Approximately 24"w x 48"d x 16"-18"h coffee table with  
steel base and HPL laminate top

## CH-1

Mid-Back Task Chair with mesh back and waterfall upholstered seat. Chair must also include height adjustable arms, swivel-tilt adjustment, pneumatic height adjustment, lumbar support, and 5 star metal painted or epoxy coated caster base suitable for hard and soft flooring.

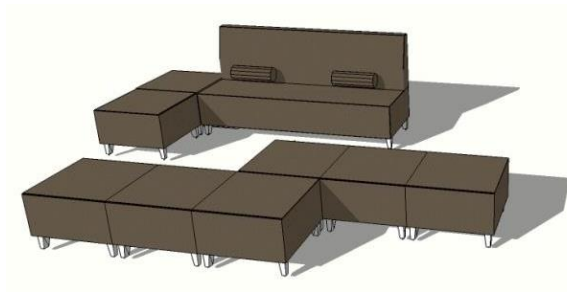

## CH-2

Side chair with fixed loop arm, upholstered seat and back, and a 4-leg frame with casters

## CA-13

- (7) Upholstered square ottomans with metal leg
- (1) square laminate table with metal leg
- (1) 48" w armless fully upholstered seat/back banquet seating with metal leg

## TT-1

24"d x 72"w **HPL** laminate top training table with metal C-leg or T-leg supports on casters. Nesting table must include flip-top mechanism and basic wire management.

## CT-1

48"d x 144"w conference table with **HPL** laminate top and metal post support legs. Table must include two cutouts to accommodate two power/data modules. Each module must provide 4 power receptacles and 4 data ports. Table must include wire management to completely conceal power and data cabling from the underside of the table to the floor.

## LO-1

6-cubby locker unit with metal **or HPL laminate** chassis and laminate door fronts. Doors must be individually locking with the use of a key/core. Ideal size per cubby is approximately 18" d x 18" w x 18" h **with a depth and height variance of +/- 3", and a width variance of +/- 6"**. Each cubby must include one adjustable metal shelf.
